Getting Ready for a Visit

A CHECKLIST FOR BEFORE, DURING AND AFTER • BASED ON AHRQ TIPS FOR PATIENTS

BEFORE

- ☐ Bring all your medicines, or the list on page 4: prescriptions, non-prescription medicines, vitamins and supplements
- ☐ Write down your questions, most important first
- ☐ Know your current conditions, past surgeries and illnesses (page 3)
- ☐ Ask someone to come with you if it helps, to listen and take notes

DURING

- ☐ Explain your symptoms, your history and any problems with medicines you have taken
- ☐ Ask questions until you understand. It is fine to ask the doctor to repeat it.
- ☐ Say if you are worried about following the instructions
- ☐ If a treatment is suggested, ask about the options
- ☐ If a test is needed, ask how it is done, how to get ready and how you will get the results
- ☐ Ask for written instructions before you leave

AFTER

- ☐ Follow the instructions, and call the office if anything is unclear once you are home
- ☐ Talk with your doctor or pharmacist before you stop any prescribed medicine
- ☐ Call if symptoms get worse, or if you have trouble following the instructions
- ☐ Book any tests or specialist visits, and call for test results if you have not heard

My Health Summary

TAKE A COPY TO EVERY NEW DOCTOR OR SPECIALIST
